

Senior Cost Controller

POSITION

Senior Cost Controller

ABOUT US

Lundin Gold Inc., headquartered in Vancouver, Canada, is part of the Lundin Group of Companies, one of the most recognized, respected and powerful resource groups in today's global industry. The group comprises 13 publicly traded companies focused on the resource sector in more than 17 countries around the world.

Lundin Gold, through its Ecuadorian subsidiary Aurelian Ecuador S.A., owns the Fruta del Norte (FDN) project, located in southeast Ecuador, in the province of Zamora Chinchipe. FDN is one of the largest and highest grade undeveloped gold deposits in the world. The Company has an experienced board and management team with extensive expertise in construction and operations dedicated to the advancement of this exceptional project.

With its key mining contracts with the Government of Ecuador in place, Lundin Gold has now embarked on construction of FDN. The Company is on track to deliver first gold in the last quarter of 2019 and achieve commercial production in the second quarter of 2020. At the same time, the Company is carrying out exploration activities on its other concessions in close proximity to FDN in search of new deposits.

Lundin Gold operates with transparency and in accordance with international best practices in the areas of sustainability, health and safety, environment and community relations. The Company is committed to addressing the challenge of sustainability - delivering value to its shareholders while simultaneously providing economic and social benefits to nearby communities and minimizing its environmental footprint.

THE ROLE

The Senior Cost Controller manages the cost control function reporting to the Project Controls Lead. This involves monitoring the overall control of project activities, change management, reporting & project forecasting

RESPONSIBILITIES

- Review and analyze all project activities, factoring risks, achieved performance and other variables in order to anticipate recurrent forecasts
- Ensure cost management system is set up appropriately and analyze budgets, commitments and actual costs to ensure accurately coded and reported
- Work with other departments as required in order to ensure budgets, commitments and actual costs are well understood and recorded properly in the cost management system
- Provide project reporting to Project Controls Lead and Project Management team as required at a minimum weekly and monthly reporting
- Review cost reports, which may also include inspections of all cost calculations and journal entries in order to resolve variances
- Constantly search for ways to minimize the expenses incurred by the project, by identifying areas of cost saving strategies within the project
- Assist in financial decision making by providing analysis on the performance trends
- Monitor projects during execution by analyzing the achieved results and comparing them with budget which could lead to pinpointing major variance as applicable
- Manage the project changes from a cost perspective. Documenting all changes and managing budgets according to approved changes
- Maintain close interaction with project and construction managers
- Perform cost analysis that aims at improving production and reducing risk contributing to the overall project success
- Other duties as assigned

SKILLS AND EXPERIENCE

- University degree with a focus on engineering, business management, project management or equivalent and a minimum six (6) years of relevant experience.

- Minimum of 4 years experience in cost control/project controls and degree or 6 years without a degree
- Previous mining and construction experience is required
- Ability to manage and effectively prioritize a multiplicity of tasks and priorities. Strong MS Office Skills - Word, Outlook, Excel and PowerPoint
- SAP and/or other ERP system experience is a must, PRISM experience is preferable
- Proficient in both spoken and written Spanish and English
